Re. Phillips 66 Company rail spur extension

Living a few 100 feet from the rail tracks along N. Ferrocarril Rd. in Atascadero, I am strongly opposed to any increased rail traffic especially this dangerously explosive type of material. Especially with recent rail history, a derailment would wipe out my neighborhood. Actually, the looks of the nearby train rail trestle is enough to worry any residents.

Please do not allow the Phillips 66 rail spur extension to happen.

Yours truly

Jack B. Gibson
