Dear Mr. Wilson:

Our company strongly supports the Phillip 66 Santa Maria Refinery Rail Project. We currently provide both temporary and long-term employees for the refinery. The refinery has been a major and valued client for more than 20 years. It's important to mention that the employees we have assigned to Phillips 66 are in head-of-household positions. It's also important to mention that Phillips66 has always been very safety conscious, very aware of paying good wages and providing good benefits and consistently pay their invoices for services on time. Our contacts at Phillips66 are dedicated to their jobs, their company and to the community. SLPS-01

I do not believe Phillips66 would seek approval for the rail project were their management not confident that the project will be successful from environmental, community and business standpoints. I believe the project will bring additional job opportunities to our community and help to ensure the long-term success of the Santa Maria Refinery.

Sincerely,

Julia S. Aguilar
