Dear Mr. Wilson:

I'm writing to express my concerns about the proposed increase in rail traffic of crude oil.

Firstly, there have been explosions and spills for similar oil transports - one I witnessed personally in the area north of Redding. The impact on the town was devasting and like San Luis Obispo, they had no local hazardous emergency response team - the nearest one is in Santa Barbara.

Among other concerns, impact on streams & wildlife, impact on air quality from increased diesel traffic.

Respectfully,

Judith Bernstein
