Dear Mr. Wilson, Nov. 18, 2014

I am writing to express my deep concern, as a resident of the Bay area, about the Phillips 66 project's proposed oil rail. This is NOT the direction we should be going in in regards to energy & the risks to our communities across California are unacceptable! KIJ-01

We are NOT prepared for the significant & unnecessary emergencies that the EIR's predict could happen (unavoidable) and we don't want / refuse the extra emissions that lead to public health costs.

Please, I urge you to reject the Phillips 66 proposed rail spur.

Respectfully, Jennifer Kim
