Subject: Phillips 66 Rail Project

Dear Mr. Wilson
January 17, 2014

I work at the Phillips 66 Santa Maria Refinery, and believe that Phillips 66 Rail Project will be good for the community and the local economy. The Refinery is already here and has a proven Safety and Environmental record. The Refinery is a long time county employer. The refinery has been here since 1955 and me and my family have been here since 1959, a lot longer than all these new comers that complain about everything.

KRW-01

The Refinery has been successfully operating its Coke rail transporting facility's for 58 years.

I hope that you will relate our concerns and wishes and seek Approval of the Santa Maria Refinery Phillips 66 Rail Project.

Sincerely,

Walter Kraft
