Comment: Cost of granite at Santa Margarita, about $17.00 ton.
Cost of shipping from the next mine to the north into SLO County if we don't have local resource is about $10.00/a ton. Production 500,000 tons per year = $5,000,000 savings per year & that savings will be passed on to consumers, added jobs at company, tax revenues to county, spending in local economy.
