11/19/14

Dear Mr. Wilson,

I am writing to you as a concerned resident of Santa Barbara County and UCSB student ~~[illegible]~~ Phillips 66 would create harms & risks for this community and for the State of California.

Crude oil trains will threaten the safety of families living near rail routes, create more toxic air pollution, & threaten our already limited water supply. This is not something that we need in our time. SIJ-01

Please think of the people. This is not something we want or need.

Thank you,

Jennifer Suh

UCSB A.S. Environmental Affairs Board
Co-Chair
