San Luis Obispo, Ca 93408

Dear Mr. Wilson,

This letter is to protest the "Phillips 66 Rail Project".

I live near Highway 1, in the Trilogy Project. If "Phillips" is allowed to bring in 19,760 rail cars filled with crude; especially "Bakken" oil my quality of life will be greatly impacted.

In addition to adding air, odor and noise pollution; my neighbors, and I will live in fear of an accident resulting in an explosion and fire like the ones that happened in Canada, Alabama and North Dakota.

I retired to San Luis County because I thought it was a safe and relatively pollution free place to live.

If this project is allowed to proceed, San Luis County will be known as a very dangerous place to visit, and to live.

Please <u>do</u> <u>not</u> allow this to happen.

Sincerely, Margaret Wallace
