Comment: I attended the last meeting in July at the Santa Margarita Community Center. I will incorporate all of the public comments voiced at that meeting concerning noise, dust, traffic, property values and water issues. Also of concern to me is the emergency response time of Cal Fire, Div of Forestry & other emergency vehicles. Hwy 58 is a narrow, curvy 2 lane road with very little shoulder area. In the event of fire, accident or medical emergency those vehicles need to travel that stretch of Hwy 58 and Packhill Rd. We see Cal Fire, Div of Forestry & rescue units pass by at least daily and more during fire season. The inability to get around the many large trucks & trailers could mean a larger, possibly deadly fire, and dead people. Also, there are many, many bicycles & motorcycles to use Hwy 58. There are several areas where there are no shoulders for the bicycles to ride on to get out of the way of the trucks.

This is no place for another quarry for so many reasons. There are already two quarries that we can see & hear.
