Comment: I am a cyclist who frequents Hwy 58. I'm very concerned by the additional traffic from the trucks traveling to and from the proposed quarry site. - 200 truck trips per day M-SAT !!?! Hwy 58 is already dangerous due to curves, dips and line of sight issues. Portions of the route that would be traveled by the quarry trucks are within a Designated Bike Route. There is a Caltrans sign by the park that says that 58 is not advisable for trucks with trailers. It is very important to take a serious look at the impacts all these new truck trips will create on an already dangerous road before someone is killed. If the project is approved, the aplicant needs to provide bike lanes as a minimum requirement.
