Subject: Santa Margarita Quarry Project

Dear Jeff,
We are property owners in Santa Margarita, and have recently become aware of the proposed Quarry project.
Is it true that over 200 truck loads will be going through town or other nearby neighborhoods?
If so, we need you to go to bat for us and the community to severely limit and/or mitigate this issue.
How come we haven't been notified from the County about this project?
If it weren't for the New Times we wouldn't have found out.
What are some positive effects that the Quarry project would generate?
What is the timeframe of the project?
Thanks for any help that you might provide.
The Schacherer Family
