<b>Question 1:</b>	<b>Which policy is the primary regulation for stormwater discharge in California?</b>
A.	National Pollutant Discharge Elimination System (NPDES)
B.	California Stormwater Pollution Prevention Policy (CSPPP)
C.	National Stormwater Pollution Prevention Plan (NSPPP)

<b>Question 2:</b>	<b>What size project is required to enroll in the Construction General Permit (CGP) in California?</b>
A.	Construction projects greater than 5.0 acres
B.	Construction projects greater than 1.0 acre, or less than 1.0 acre if part of a larger common plan of development.
C.	Construction projects greater than 10 acres, that will take longer than 6 months to construct.

<b>Question 3:</b>	<b>Who is the Legally Responsible Person (LRP) responsible for obtaining permit coverage and ensuring stormwater permit compliance throughout a construction project?</b>
A.	The General Contractor who is managing the site on a daily basis.
B.	The project proponent or owner.
C.	The intended or future owner of the completed project.

<b>Question 4:</b>	<b>What are Permit Registration Documents (PRDs)?</b>
A.	The documents in the SWPPP folder at the job site that are updated weekly by the QSP.
B.	The documents that the County approves as part of construction permit plan review.
C.	The documents that must be uploaded to the State Water Resources Control Board to complete enrollment and registration in the Construction General Permit.

<b>Question 5:</b>	<b>What is a Waste Discharger Identification Number (WDID#)?</b>
A.	A number automatically issued online by the State Water Resources Control Board to a construction site when it is fully enrolled in the Construction General Permit.
B.	The construction permit number issued for the grading permit by the County.
C.	A number that the Central Coast Water Board provides to local projects when requested by a contractor.

<b>Question 6:</b>	<b>What documents comprise the Permit Registration Documents (PRDs)?</b>
A.	The Construction SWPPP and Notice of Intent.

## Construction General Permit Training Video

### Introduction to the Legally Responsible Person and CGP- Proficiency Quiz

B.	The Construction SWPPP and Certification.
C.	The Construction SWPPP, Notice of Intent, Risk Assessment, Site Map, Annual Fee, Certification, and potentially others (depending on project type and location).

<b>Question 7:</b>	<b>What certification is required for a preparer of a construction stormwater pollution prevention plan (SWPPP) for a site?</b>
A.	Qualified SWPPP Developer (QSD)
B.	Legally Responsible Person (LRP)
C.	Licensed General Contractor (GC)

<b>Question 8:</b>	<b>What is the role of a Qualified SWPPP Practitioner (QSP) at a construction site?</b>
A.	Report all potential non-compliance issues to the Central Coast Water Board to force the contractor to comply with requirements.
B.	Evaluate project compliance with the CGP on an ongoing basis, support stormwater management and BMP implementation on site.
C.	Install BMPs on the site and remove them at completion of construction.

<b>Question 9:</b>	<b>Are stormwater requirements relaxed during the dry season?</b>
A.	Yes. BMPs can be removed from the site and are not necessary from April 15-October 15.
B.	Yes. BMPs must remain in place, but inspections and reporting are not required.
C.	No. The full scope of requirements for inspections, reporting, and BMPs remain in effect during the full calendar year.

<b>Question 10:</b>	<b>Are stormwater requirements relaxed after project grading is complete?</b>
A.	Yes. Most BMPs can be removed and stormwater sampling is not required after grading is finished.
B.	No. All provisions including BMPs, sampling, inspections, and reporting remain in effect through completion of the project.
C.	Yes. Once grading is complete only waste management BMPs are required.
