Footnote #	Footnote Narrative			
1	The Department reviewed the time studies, pertinent code sections, and reasonableness of the current fees. Direct costs have been added where applicable.			
2	The department has changed its methodology of accounting for Business License General Fee and Business License Fireworks Fee. Previously, the General License Fee was the result of a weighted average of the cost of processing a new and renewal license. For FY 2012-13, the Business License General Fee is being replaced with a separate fee for the processing of an application and issuance of a new license and a separate fee for renewing an existing license. This change is to allow for a more accurate allocation and recovery of costs as more time is involved in handling an application and processing of a new license vs. renewing an existing license. Additionally, the department is in the process of purchasing a new Business License System. This cost will be recovered over a period of three (3) years and is estimated at \$7.00 per license. At the end of three (3) years, the fee will be adjusted once the system cost is recovered. The fee for ongoing service and maintenance costs is estimated at \$3.00 per license and will be adjusted annually. The department is applying the same logic to the Business License Fireworks Fee.			
3	The department conducted a survey of comparable counties to ascertain that the proposed fee was reasonable.			
4	Statutory fees are subject to change in order to comply with state statutes.			
5	This is a State-mandated fee paid to the State if sale proceeds exceed \$1.50; no revenue to the County.			
6	The cost was established as \$150.00 in 1979 and has not been increased since that time. Staff salaries, indirect costs, and direct costs have increased greatly since 1979. In addition to the time study, the internet auction service provider has increased their fee from \$55.00 to \$150.00. The code allows the County to recover the actual cost of the tax sale.			
7	The fee is renewed annually and prorated in the last year of administration, plus 1/4 of 1% of anything over \$10,000 is also collected.			
8	The fee is 4% of the first \$100,000, 3% of the next \$100,000, 2% of the next \$800,000, etc. There is a \$1,000 minimum compensation for estates handled by the Public Administrator. (Most PA estates do not exceed \$30,000 and therefore fall in this category.)			
9	The Current Secured Delinquent Cost Fee is being increased to \$20.00, from \$10.00, to recover actual costs of preparing the delinquent tax records and giving notice of delinquency, as allowed by code. It has not been increased since 1983. All costs accrued in FY 2012-13 will be at the rate of \$20. All pre-existing costs on July 1, 2012, will be collected at \$10. Until all \$10 costs have been collected, this fee must be estimated with units at both fee amounts. For workbook purposes, the projected number of units was determined by taking the total estimated revenue and dividing by the \$20 fee. Although it appears that the number of units is reduced, the actual number of units collected is expected to remain at the same level as in previous fiscal years.
