TO: Board of Supervisors

FROM: George Gibson, Design Engineer 

VIA: Glen L. Priddy, Deputy Director of Public Works - Engineering Services 

DATE: June 27, 2006

SUBJECT: Letter Transmitting Plans and Specifications for repair of a timber bridge on Santa Rita Road over Old Creek at Cayucos, Contract No. 245R12B530 for Board Approval and Advertisement for Construction Bids.

Recommendation

It is our recommendation that the plans and specifications for the subject contract be approved and the contract be advertised for construction bids. The recommended bid opening date is Thursday, July 27, 2006.

Discussion

Santa Rita Road is a rural inter-regional route serving agricultural uses east of Cayucos. Near the intersection with Old Creek Road, there is a bridge over Old Creek which has been inspected by Caltrans on an on-going basis for structural repairs. In 2005, the inspection turned up critical deterioration to four pilings supporting the bridge. Two required immediate attention and a contractor was hired to replace the pilings last summer. The remaining pilings have been scheduled for work this year and the appropriate permits have been sought to conduct the work.

The proposed contract would replace the remaining two pilings as well as provide rock slope protection at the easterly abutment of the bridge. Once the project is complete, we will have repaired the structures substructure to alleviate future needs for repair. Construction of the work is limited to the season prior to significant stream flow in the Creek and needs to be completed by December.

Other Agency Involvement/Impact

There is no outside funding source for this project. Permits have been submitted to Army Corps of Engineers' and we are expecting the permits within the next month. California Department of Fish and Game has our application for the work and we are allowed to conduct work if they are unresponsive.

Financial Considerations

This is a Road Fund Maintenance project currently budgeted through design at \$22,000. Award of the construction phase is expected to occur in the beginning of Fiscal Year 2006/07. Funding for the estimated \$91,000 construction phase will be from the 2006/07 Roads Fund Maintenance Budget. Funding under the Maintenance budget is provided to maintain bridges such as this one on Old Creek in response to State Bridge Inspections. No budget adjustment is anticipated at this time.

Please see Exhibit A for a Cost Breakdown of the project.

Results

Approval of the recommended action will result in this project being advertised for construction bids.
