## **Request for Quotation 25337-H Wireless Outdoor Network for Airport Parking Kiosks**

### **JOB WALK SUMMARY**

October 26, 2011

County is open to reviewing any mounting options on both the terminal building, or the airport beacon tower. Preference is to keep equipment out of sight as much as possible. Please provide mounting design details in proposal.

County is open to trenching on the property if required for power or network cabling, please detail in proposal.

Each parking kiosk will be using a Maxrad MLPVDB800/1900S low-profile vertical multi-band (Cell/PCS/Wi-Fi) antenna for frequencies up to 2500 MHz.

Please see the Maxrad website for additional specifications at:

[http://www.antenna.com/apg\\_products.cgi?id\\_num=10918](http://www.antenna.com/apg_products.cgi?id_num=10918)

Each parking kiosk will be using a Ruckus Mediaflex 7211 802.11n gateway. Please see website for additional specifications :
