

# SIREN TEST

**SATURDAY  
AUGUST 28  
NOON & AGAIN AT 12:30 PM**

The San Luis Obispo County Early Warning System sirens will be tested on Saturday, August 28. The sirens will sound twice – at noon and again about 30 minutes later – and will last 3 to 5 minutes.

This is a test and does not require any action on your part.

During the tests, local radio and television stations will be conducting normal programming.

However, if you hear the sirens at any other time go indoors and tune to your local stations for important emergency information and instructions.

When at sea, tune to Marine Channel 16.

**Saturday, August 28 – it's only a test.**

Sponsored by the County of San Luis Obispo Office of Emergency Services and Pacific Gas and Electric Company. Paid for by Pacific Gas and Electric Company.
