

Public School

RELOCATION CENTERS

**IF YOUR CHILDREN
ARE IN SCHOOL**

As a precaution, public school officials may decide to close their schools and move students to a School Relocation Center before any public action is required. They will be moved by bus to a Public School Relocation Center under constant adult supervision. In this case, listen to a local radio or television station for details on school relocation and where to meet your children.

Parents should not try to pick up children at public schools unless they are directed to do so. This could cause traffic and safety problems for children who are being moved. Also, children may have already been moved to a Public School Relocation Center before parents arrive.

Private Schools, Day Care or Before/After School Programs: Please check with your children's care provider concerning emergency plans.
