976 Osos St. Room 300
San Luis Obispo, Ca 93408-2040

Dear Mr. McKenzie,

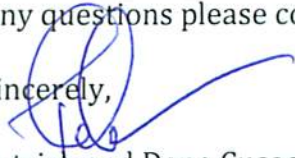

I write you to express my concern for the Excleron CUP being considered. Of the several concerns I have, traffic circulation is near the top of my list. I would ask that careful consideration be given to the routes in which any trucks and or equipment will travel to access the site. Many of the rural roads that lead into an out of this area are not designed to handle this type of traffic. Of particular concern is the Cherry Lane and Huasna Road areas. Neither could handle any of the big rig trucks and would be a danger to residents and other vehicles travelling this route.

I would also like to reserve the right to comment on the following topics:
Agricultural resources, Population/housing/transportation/circulation/wastewater and water.

I am not completely opposed to the project as a property owner certainly has a right to develop his/her own property; however, careful, long term planning need to be in place to be sure it can coexist with the surrounding areas and people for many year to come.

Any questions please contact me at the address below:

Sincerely,

Patrick and Dana Cusack
