Re: Excelaron EIR

Dear John:

I am opposed to the Excelaron Project. I believe there will be more wildfire risks than anticipated in the EIR. My parents have acreage on Suey Creek Road. The Cal Fire staff has long identified this area as a high risk area. The Excelaron plant will have many flammable substances on site. A wild fire that starts at the Mankins Ranch could be catastrophic for the Suey Creek area. This project is simply not worth it.

Sincerely yours,

Todd Davis
