Re: Excelaron Project

Dear John:

I oppose the Excelaron project and feel the Environmental Impact Report is inadequate. I drove the Huasna Valley for many years delivering packages. I am very familiar with Huasna and Huasna Townsite Roads. I believe the traffic that will be generated from this project (other than oil tankers) will cause a significant safety problem. All traffic for the project should be routed through Highway 166. I also go horseback riding once or twice a week on several Huasna ranches. The clean air and water make this valley a very desirable place. The project, if approved, will make changes to the air and water quality that cannot be reversed. We need to protect the Huasna Valley!

Very truly yours,
