---

Most of our bicycle rides are up Hausna Rd and into the valley area near Mankins Ranch. We think the extra traffic on this narrow road would be a consistent threat to our safety. I've been riding this road for 35 years and think the traffic is getting too thick already! We're against additional traffic on this road, particularly when it is by a slippery company with poor ethics and practices evidenced by their past history. They will destroy the ambiance of one of the most pristine parts of our county.

Thank you,  
Gar & Elizabeth Salzgeber
