Re: Excelaron EIR

Dear John:

I am totally opposed to the Excelaron project. The EIR does not analyze the impact the Excelaron project will have on property values nor the loss to the San Luis Obispo County tax base. My family and friends own several properties in the Huasna area. We purchased the property due to the pristine environment in the valley. I believe the noise, air and water pollution from the plant will ultimately lead to lower property values. I do not feel that the Class I impacts identified in the environmental impact report will be properly mitigated. This will certainly lead to less demand for Huasna properties and lower prices. This project should not go forward.

Very truly yours,
