Dear Mr. Hedges.

Please distribute these comments to the Planning Commissioners for their Feb. 4/5 meeting.

I am strongly opposed to the expansion of the Phillips 66 plant and the resulting mile long tar sands oil trains which would run through many cities in southern California.

I have lived in Carpinteria since 1957 and my home is along the railroad tracks. I am not only worried for myself, but for all the other cities which would be put in danger.

A train accident in Carpinteria could potentially destroy all that we have worked so hard for to make Carpinteria a wonderful city. In danger would be our restored salt marsh, the State Park, schools, The Bluffs Nature Preserve, the seal rookery and essentially most of Carpinteria as the rail road bisects our entire town.

Please oppose this expansion, as so much is at risk.

Respectfully,

Betty Songer
