After listening all morning I would like to remind you all of a few points that stick out to me
1 Phillips busses in employees from all over Southern Ca who are getting paid to be here . I wonder if they had a choice. Obviously they were not expressing their own opinions . Also they all said the same thing over and over even though you had asked for this not to happen(too bad there is no way for you all to stop it once it starts)

2 Opposition cares about

Local control of tracks. Once we give this up we never get it back .

The way federal regulations are now, once we let these trains come through, Phillips can add more with no repercussions from us at the local level.

3. My understanding was that oil being refined will be sold overseas

Also Phillips said No jobs will be affected

because current refinery operations would not be affected. They just want to increase profits

Do we not have hazardous materials restrictions on 101 that would prohibit trucks?

We need to keep oil in the ground .

Thank you,

Beverly Cohen, San Luis Obispo
