Subject: Added tracks at Callender refinery

Dear Ms Arnold

The fear-mongering about this issue has apparently extended to the North County I am concerned that the lies omissions and not-even- half -truths of the anti groups will negatively impact the jobs and tax revenues of this county. These issues affect all of us.

I am in no way connected with the oil folks.

I have been aware of the work of the Callender refinery since 1961, and have closely followed railway issues from an early age, local state, national and international.

I am retired in Atascadero. My wife works here, two of my four children live and raise their families in Atascadero and the youngest lives in San Luis Obispo. The 4th lives in the LA area.

I am very aware of the difficulties of finding employment for people of all ages from high school thru maturity and find it extremely unfortunate that the picture presented by the anti folks is so unbalanced, irrational and un-caring as to be quite irresponsible.

I trust you will pursue a reasonable path to an equitable solution to this question.

I have supported you in previous elections and intend to continue to do so

Sincerely

Ed Workman, Atascadero
