Hello

I am writing to request you vote to deny the rail spur proposal by Phillips 66. I have spoken to the panel in the past. I have grandchildren living in Arroyo Grande less than a mile from the railroad tracks. I also live in Nipomo and already suffer from asthma due to the current pollution on the mesa.

This proposal is all about a corporation making billions at the expense of SLO County people. It is far too dangerous a plan. Please vote no due to a multitude of issues including: the possibility of oil train derailment and the horrors that follow....or the negative impact on air quality....or the negative impact of possible rail and trestle collapse due to age and weight of trains....or the negative impact on our tourist economy of mile long, noisy, stinky trains going along the beautiful coast...or the danger to all the schools and children along this rail route.

Keep this stinky, dangerous, revenue elsewhere.....bring healthy, clean, safe business to SLO.
Thank you,

Ethel "Tink" Landers
