Subject: public safety

Supervisor Arnold,
Sunday, I listened to Senator Corker, a Republican from Tenn. speak on ABC's weekend edition. He had many things to say, but one thing caught my attention. He said, the highest, most important job of any public official is the safety and security of those he represents. I am curious if you feel that way as well?
I ask this because of the situation with the rail spur. After seeing the derailment up in Oregon, and the damage it did to the city where it occurred, and its people, do you feel that allowing those trains through our country is the best way to protect the safety and security of citizens like myself, here in Pismo Beach?

Thank you for your time in considering this issue.
