Subject: STOP the OIL TRAIN

Please do whatever you can to stop the oil train along the central coast, This is a dangerous idea and it is not what if an accident happens it is when will an accident happen. I am planning to retire in a home I purchased in Paso Robles within the blast zone and I fear for my life. I also fear for this as it is a target for terrorist. There is no way to guard a train and it's tracks. Think of this a a dirty bomb traveling up and down our beautiful state just waiting for an attack or an accident. Why take that chance we are becoming less and less oil dependent as we use less and less oil. The future requirements are to become even less dependent on oil so why even build this plant or expand it. I say Shut it all DOWN NOW. Please.
