Subject: Oil trains

I live in the affected area of FCX expansion oil activities in SLO, the rail spur, the pipeline and lease extension with additional new rigs. This is a filthy business and potentially pollutes our beautiful County! There is a glut of oil in the world, prices are decreasing and there is no reason in the world to allow this activity to continue! The County seems to have turned a deaf ear to the pleas of its residents, completing ignoring them in favor of a Corporate Entity with no concern for who it tramples on to get its way. Plus they don't live here!!

Subject: Phillips 66 oil trains

Supervisor Lynn Compton, 4th District

Dear Lynn,

I admit to wondering whether this letter will do any good, even if it's part of a large movement. You sure didn't listen to the hundreds of people in Santa Margarita when they raised their voices to try to move your position on the quarry.

But hope springs eternal, and they weren't in your voting district. I am.

I have recently heard that you hadn't heard much talk AGAINST the spur. All I can say is that maybe you need to be spending more time listening to some other people. I haven't spoken with ANYONE who is in favor of it. Who would be? We face any and all risks that are possible, and Phillips gets all the benefits. There are none for the people along the route, and they are relying on your intelligence and fairness to see that. Tell me how

this arrangement benefits us? I don't buy the argument that the refinery will probably close if we don't allow it. We would have been hearing about imminent closure long before now if that were true.

I am one of your constituents and I am strongly OPPOSED to the approval of this facility.

I hope you start listening to the people who live in the areas where your vote has the ability to change their lives. So far, your votes seem to be concerned almost exclusively with business interests. I think that's a mistake. Some of us hoped for the best with you.

Thank you for your consideration,

Janis Scott
