Subject: no to oil trains

Hello. I heard recently that you say you haven't heard much in opposition to the oil trains coming through our district. Please put me on record as **URGING** you to oppose this project! I hope you've heard that the Lucia Mar Teachers Association, the California Teachers Association and the National Education Association have all written letters to the Board of Supervisors in opposition to this project. I'm a recently retired teacher, and I was instrumental in getting those letters written. A majority of the elected representatives to the above bodies, all teachers, many of whom are your constituents, voted to have those letters written. **PLEASE** protect our children, and vote no on this project. Thank you. Kathleen Minck

Subject: Phillips 66

Supervisor Lyn Compton

I am horrified that you would even consider allowing Phillips 66 to proceed with its plans to send oil shipments via rail thru the heart of our communities with little regard for the high potential for a devastating accident.

I cannot believe that you can morally put the lives of local men, women and children at risk to serve the needs of Phillips 66. If you do allow this travesty of environmental concern to proceed, you can be sure that I will **NOT** vote for you in your next election and will do whatever I can to insure that my friends do likewise.
