**Subject:** No Oil-By-Rail in SLO County

Dear Planning Department and Board of Supervisors,

Last week, another train hauling crude oil derailed and exploded, this time near the Columbia River Gorge in Mosier, Washington. This event serves as a powerful reminder of what's at stake in our fight to stop the Phillips 66 oil trains project in SLO. Now more than ever, I am writing to strongly encourage the SLO County Planning Commission to do the right thing and deny this project from moving forward.

The people of this county are being asked by a multi-billion-dollar international corporation to bear the risk of this project with no reward. The evidence placed before the Planning Commission clearly shows reason for denial of this project.

Thank you for your NO vote on Phillips 66 oil-by-rail.

Sincerely,

Kelly Reed Daulton  
Templeton, CA 93465
