Question or Comment	<p>Please deliver to Don Campbell. I would like to see Don Campbell vote no on the proposed oil train project. I live in Atascadero, and don't want my community exposed to the danger the trains pose. I also do not want increased rates of cancer in our community. We are already exposed to so many toxins in our lives. Some of us live in this area so that we don't have to be exposed to the toxins we might find in a more dense urban area. Also, we need to keep working to make alternative forms of energy more productive so that we can do away with less renewable forms of energy such as petroleum based products. If we say yes to projects like this one, we perpetuate the production/refinement of an un-renewable resource. When are decision makers going to get that we cannot keep putting turning a profit before ourselves. If we continue to put profits first, there will be no self. Thank you, Kim Sanders</p>
