Subject: Oil Trains

Dear Commissioners,

The calamity caused by the derailment of a train carrying highly volatile crude oil through the Columbia River Gorge is definitive proof that oil trains are unsafe, create a dangerous hazard to surrounding communities, put individuals at risk and pollute pristine waterways that cannot afford to be compromised any further. Please use your powers to stop this ghastly practice, and do not approve the rail spur proposed by Phillips 66 when the matter comes before your commission.

Sincerely,

Linda Seeley
