Subject: Please Reject Phillips 66 Rail Spur

Dear Supervisor Compton,

I am writing to ask you to **please vote to reject the rail spur needed by Phillips 66's project**. You can be a hero to the 95,000 San Luis Obispo County residents living in the blast zone.

I just became aware of the dangerous proposition of Phillips 66's project to bring oil trains, not only within a mile of the home I purchased in May 2013, but through the length of San Luis Obispo county, and all of California.

This means that I can consider my home as being within the 2 mile wide corridor blast zone. Apparently these trains would be 1 to 1.5 miles long carrying Canadian tar sands ultimately bound for Asia.

You may want to read these:
