Subject: Opposing Philips 66 refinery plans

Dear San Luis Obispo Planning commissioners,

Thank you for great service you are providing to our community. We are very happy hearing that you have proposed to deny Philips 66 rail facilities expansion plans.

We have been very concerned about the plans to increase oil transportation to refinery facility in our area. We are following horrible accidents involving transportation of crude by trains in places like North Dakota, Canada, and recently in West Virginia. We are particularly worried about the train routes close to populated areas such as Cal Poly and the student housing nearby.

We appreciate your care and concern for our community and for submitting your input to the County Board of Supervisors.

We strongly believe the proposed expansion plans will adversely affect our community and environment.

Best Regards,

Mitra and Adam Nafisi
