**Subject:** Rail spur

Dear Sir,

I live in Arroyo Grande most of my 75 years. I am very familiar with the mesa where philipps 66 wants to put in a spur. Putting that spur there or anywhere in the Mesa would disrupt the topography to no ones good life benefit . I strongly urge you to pursue the denial of philipps 66's proposal. Our county would be so much better off for many reasons which were presented during the first session concerning 66's hearing. Thank you for reading my plea.

Vincent Antonio
