Subject: Oil Train Project

Dear Supervisor Lynn Compton:

My name is William McQuilkin Jr. and I am a resident of Nipomo, CA. I appreciate your request to hear from your constituents on the proposed Phillips 66 oil train project. As a resident living in south San Luis Obispo County, **I strongly oppose the approval of this facility.**

This project has a great deal of downside and no upside for SLO residents. Our county gets all of the risk while P66 shareholders and executives make millions. The Blast Zone encompasses thousands of residents as well as major hospitals and public safety facilities. An oil derailment could do irreparable harm to our tourist economy and significantly harm small businesses. The environment and our air quality would suffer, as well, from train exhaust emissions and carcinogenic gasses.

California is leading the way away from fossil fuels toward sustainable energy. Dirty tar sand crude oil and the resultant CO₂ in the atmosphere has no place in this equation.

Please vote NO on this oil train project.

Thank you for your consideration.

William McQuilkin Jr.
