Subject: Phillips 66 rail expansion project

---

To Whom it May Concern,

Our family resides in Nipomo near HW1 on a farm consistent with the values of the Central Coast over the past 12 years. As a family run farm who strive as growers to provide the local community with locally grown product, we would be considerably impacted by the planned rail expansion with regard to noise and risk of rail activity expansion hazards. We are aware of the hazards that similar communities have experienced in light of monetary gains in our own country and Canada.

We moved here for the beauty of the ocean, the land and gift of the untouched landscape that the Central Coast offers to those who reside and frequent here. We ask you to, on the behalf of the community that choose to live, nurture and support the unique niche of the Central Coast, to support us in what we want to bring to our children, and reject any further expansion of the proposed Phillips 66 project.
