The Aera Way

We integrate unique processes, technology and people into an innovative system that produces results. It's simply how we do business.

Aera careers

With Aera, you can tap your career potential with challenging projects while working in a supportive and enriching environment.

Community connections

We put our words into action through volunteerism, local investments and leadership to help build stronger communities.

California operations

As one of California's largest oil and gas producers, we take pride in our excellent safety and environmental performance.
