Re: Public Records Act Requests Dated January 12 and 14, 2016, re Phillips 66 Company
Rail Spur Extension Project

Dear Ms. Horton:

The County of San Luis Obispo ("County") makes the following response to your Public Records Act request dated January 12, 2016, and your revised request dated January 14, 2016, which the County received via email on January 12 and 14, 2016, respectively.

In response to the first category of records in your January 12, 2016 request for "data supporting the 'Typical SMR' bar in the Distillation Yield bar chart provide in the response to ABJC-32 in the Phillips 66 Company Rail Spur Extension Project and Vertical Coastal Access Project Assessment ('Project') Final Environmental Impact Report," the County has no records in its possession or control that are responsive to this request.

In response to the second category of records in your January 14, 2016 request for "Spreadsheets and modeling files (in native, unprotected format) supporting the emission estimates and health risks presented in the Rail Spur Final Environmental Impact Chapter 4.3 and Appendices B.1 and H.4," the Department of Planning and Building is in the process of compiling its responsive records. Those records are available electronically and will be sent to you by the end of next week.

Laura Horton, Esq.
