To Whom It May Concern:

Let it be known that I am against the Project proposed by Phillips 66, County Project Number: DRG2012-00095, due to its environmental impacts and the danger of a possible derailment of trains travelling the Guesta Grade. It should be noted that this is a real possibility, as there was no similar grade at the Meganitic derailment in the Quebec Province near a river in Canada a few years ago. That train burned for days. And it caused much damage to the surrounds there. San Luis Obispo would be very threatened by a derailment on the Grade. Also there would be far too many trains coming through the town of Santa Margarita, which would affect the community negatively. Overall this project would be bad for the environment in this county.

Sincerely,

*Barbara Ahern*
