**TO WHOM IT MY CONCERN:**

I am Brian Edwards President of the Padaro Assocation. I am speaking on behalf of our residents and Board with the following comments: I have lived on Padaro Lane on and off my whole life. Trains and noise have always been a part of being on this lovely street, but to increase the amount of freight trains with the noise and horns, I am not favor of more... There is also a safety issue if there were to be a derailment, plus additional dust and toxic fumes.

Please vote no on this.

Thank you,

Brian Edwards  
President  
Padaro Assocation
