Arroyo Grande, CA 93420

February 8, 2016

San Luis Obispo Co. Dept. of Planning:

In regards to the proposed **Phillips 66 proposed rail spur** project, I would like to say that **I am whole heartedly in favor of the expansion**. I live within 300 yards of the railroad track that serves the refinery. I can see about a half mile of the track from my deck.

- It is because of efforts of companies like Phillips that America is far less dependent on foreign energy than it was 10 years ago.
- Gas is about a dollar more per gallon in California than it is in Arizona and Nevada because so called environmentalists have consistently blocked efforts to *expand refinery capacity in California*.
- The additional good paying jobs the Phillips expansion would provide would be a good thing.
- My 2 year old grandson is also wholeheartedly in favor of the project. Every time he sees a train he runs out on the deck and waves and yells choo choo.

Sincerely,

A handwritten signature in black ink, appearing to read 'Rob Wetzel', written over a horizontal line.

Rob Wetzel

Dear Mr. Hoover:

I am writing to you regarding the information that was provided to me by the FBI on January 28, 1958, concerning the activities of the Communist Party in the United States.

I am particularly interested in the information regarding the activities of the Communist Party in the United States, and I am sure that you will be able to provide me with the information I need.

I am sure that you will be able to provide me with the information I need, and I am sure that you will be able to provide me with the information I need.

I am sure that you will be able to provide me with the information I need, and I am sure that you will be able to provide me with the information I need.

Sincerely,  
[Signature]
