Subject: Phillips 66 spur request

Dear representative:

It is my opinion that transporting oil through my city is unsafe. Most railroad cars have not been updated to available safer standards. Even then, the risk/reward ratio for the citizens of this county is not worth it. There is no benefit to us,

The Oil Lobby has much power to see things like this through, while our only choice is to express our disagreement through you.

Again, the only upside to this is for the oil company, not for us.

Thank you.

Bernard Ringer-Britz
579 Bay St
Pismo Beach, CA 93449
