Dear Mr. Wilson,

I live in the South County and am writing in support of the Phillips 66 project. I would not support this project if I believed the scope of this draft EIR was not comprehensive and thorough

As the county reviews comments for the DEIR, I hope the importance of the Phillips refinery to our local economy is understood. The refinery has operated for close to sixty years, creating good paying jobs, economic opportunities, as well as being a good neighbor.

I applaud Phillips 66's decision to adapt to changing markets. By doing this, they have again demonstrated their commitment to our community. This document addresses the concerns and shows that this is a good project. Decisions need to be made on facts, not "What ifs." I look forward to the final approval of this project.

Best regards,
