Subject: Phillips Rail Spur

Mr. Murry Wilson
SLO County Planning Department

We are retired and have a home in Trilogy. We are very concerned about the health and safety of ourselves and also the other residents of SLO County.

Having 520 trains, 1.5 miles long, coming through the county each year is an accident waiting to happen! The additional pollution from diesel trains loading and unloading oil will doom old and young people to staying inside. CAD-01

Please help us to enjoy our remaining years by turning down Phillips' request to build a rail spur. Please adopt the "no project alternative."

Thank you!

Don Cameron
