Subject: Proposal by Pillips 66 for Rail Spur on the Nipomo Mesa & it  
REIR

Please consider this to be an objection to the proposed project, per the REIR, and specifically for the following reasons:

1. Risk to our economic well being with our primary residence here on the Mesa. | CAK-01
2. Air pollution already exceeds legal standards; the proposed project would only make it worse. | CAK-02
3. The number of trains and the related noise would make for an intolerable situation. | CAK-03
4. Potential for disasters is simply not compatible with current uses. | CAK-04

Kit Carter  
Nipomo, CA
