Dear Mr. Wilson,

The draft EIR for the Phillips 66 Rail project is long and comprehensive. I commend its extensive work in this document and urge this project to move forward for approval.

I commented on the previous EIR and my support has not changed. I appreciate the pro-active decisions made by Phillips that will ensure the refinery continues to be an essential component of our local economy.

DUC-01

I believe the findings in the DEIR are thorough and complete. The ultimate findings cover the concerns raised in the previous EIR, and this only strengthens my support for this project.

Regards,

Carl Dudley
