San Luis Obispo, 93408 CA

Nov 23, 2014

Dear Mr. Murray:

I am very concerned about the Mesa Refinery train carrying toxic material through the sensitive habitat of coastal central California. I have read of many derailings over the last several months of oil-carrying trains. I find this very concerning. I recently learned that the tracks cross more than 70 streams, each one ~~an~~ important to it. ~~ecosystem~~ + vulnerable to pollution.

Thank you for your participation in these matters

Yours Respectfully,
Lawrence Edwards
