The Phillips 66 Rail Terminal Project presents unacceptable dangers to our community.

All aspects of this project present unacceptable threats to the health, economy and environment of our area. Please do your job and protect the citizens of our County.

FOB-01

The Rail Terminal Project brings a full spectrum of never-before-seen dangers to all of SLO County ... including the very real potential for toxic fires, smoke, explosions and oil spills.

The REIR clearly states that local emergency services are currently underfunded, undertrained, under equipped and unprepared to deal with these dangers. Certainly, if the emergency services were built completely different and every single suggested mitigation measure correctly implemented, then possibly those dangers could be eliminated. But reality tells us that there is no practical way to make that happen.
